step

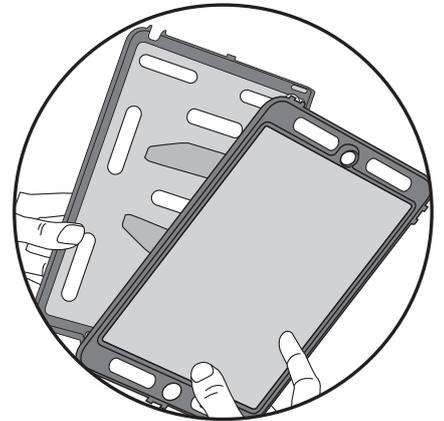

1

Ensure all surfaces of your iPad Air 2 are clean. Peel off the silicone layer of the case to reveal the 2 x half internal polycarbonate casings.

step

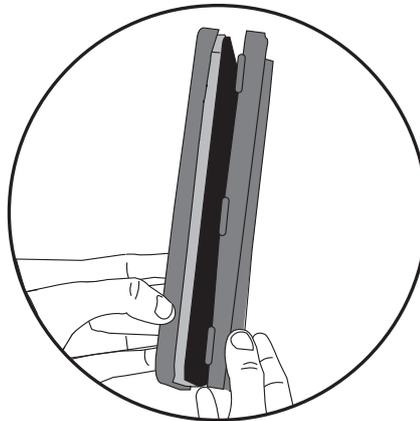

2

Pull the hard shell apart by carefully splitting the shell from the bottom corner. Use your finger nail if required.

step

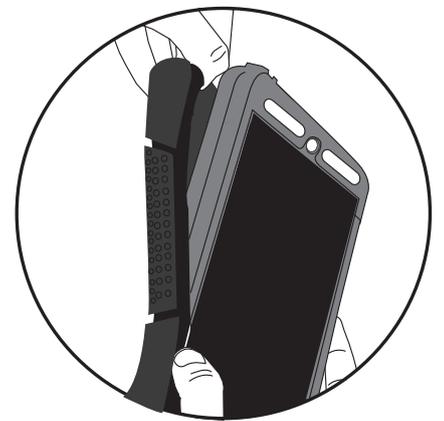

3

Place the 2 x half polycarbonate casings either side of your iPad Air 2 and insert into the silicone cover.

step

4

Carefully lift all the silicone sides up and over the polycarbonate case. There is a groove that runs around the front of the polycarbonate, so once the silicone is lifted up and over the edge it locks into place for a snug protective fit.

Congratulations, you have successfully installed your iPad Air 2 into the RUGGED CLASSIC case.
