WARRANTY INFORMATION - FOR AUSTRALIAN CONSUMERS ONLY

Powermove Distribution provides its accessory range of products with a 1 Year back to base warranty: "Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure".

The warranty offered is in addition to other rights and remedies offered under consumer law.

The conditions contained in this warranty apply to purchases made within Australia only.

Purchases made outside of Australia are covered by the warranty procedures and policies that comply with each respective place of purchase.

Conditions of warranty:

- The consumer must retain proof of purchase for the warranty period.
- The warranty period is valid for 1-year from the original purchase date.
- The warranty applies only to defects in material or workmanship that occur during normal use of the product.
- The warranty is a 'back-to-base' warranty meaning the consumer is responsible for the costs associated with returning the product to their place of purchase or to Powermove Distribution.
- The consumer must return the goods, original packaging (where feasible) and proof of purchase to make a warranty claim.
- If a replacement product is supplied the warranty period applies to the balance of the warranty period from the original purchase date.

The warranty does not cover:

- Failure that has occurred as a result of accident, abuse or mis-treatment.
- Goods that are damaged as a result of other third party products.
- Any misrepresentations given that are not covered by the warranty.

Warranty claim procedure:

- The consumer must return the goods as per the requirements stated in 'conditions of warranty' section d & e.
- If the consumer is unable to return the goods to the place of purchase they can send the goods with the required packaging and documentation, along with their contact details including address, phone number and e-mail to:

The Ultra Tough Waterproof case gives you the freedom to take your phone with you when you're diving, swimming and having fun on the water.

To make sure your phone stays protected it's important to follow these steps prior to first installing the case and after any major impacts.

1. CHECK SEALS

2. WATER TEST

3. INSTALL

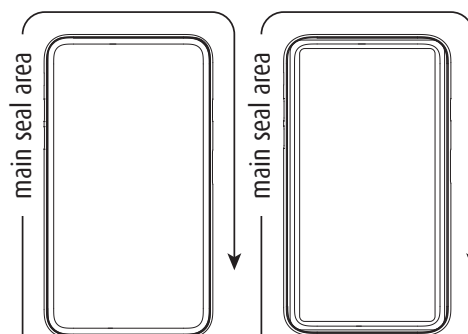

IMPORTANT

Remember, if an activity could hurt you it could hurt your device. This case is a precision piece of equipment, however it is not indestructible and should be used with consideration. The case or device may be damaged by drops from greater than the tested height - particularly on rough surfaces. We do not guarantee that this case will protect your device in all circumstances. Users expose their device to hazards at their own risk. Users must follow all installation, maintenance and operation instructions carefully for water, dust and shock protection. Under no circumstances will we repair or replace a damaged device. This case is not a substitute for a backup or device insurance.

1. CHECK SEALS

Make sure the seal area is free of dust, dirt, hair and other debris.

If the seal area is not clean, rinse it in warm water then shake to remove excess water before immediately installing.

iPhone is a trademark of Apple Inc., registered in the U.S. and other countries. All registered trademarks, trademarks, brand names or product names are the property of their respective owners.

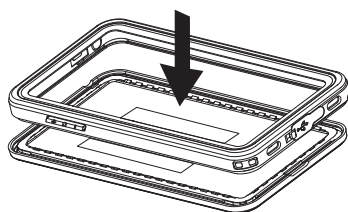

2. WATER TEST

Before installing your case it is important to perform a water test. This test checks that all the seals are working properly.

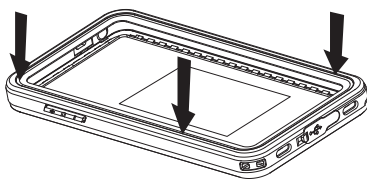

1. Check seals are clean and in place on the case

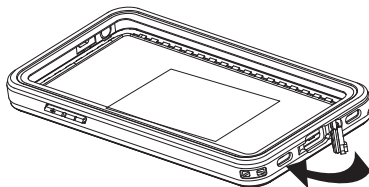

2. Place a piece of paper inside the case
NOTE: Paper should be smaller than the case

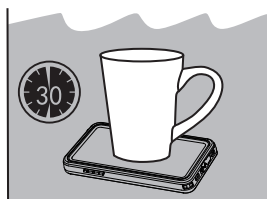

3. With the back facing down, press firmly around the edges of the case to ensure the latches are fully closed.

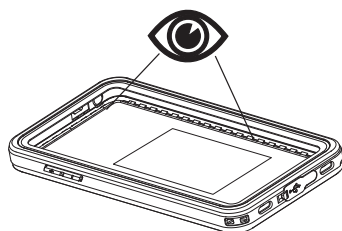

4. Ensure that all plugs are screwed in securely.

5. Fully submerge the case underwater, weighing it down with a cup for 30 minutes.

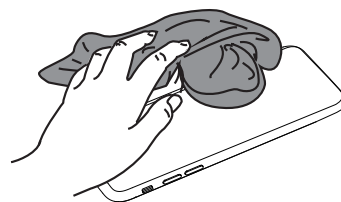

6. After 30 minutes, remove from water and check if the paper inside is dry.

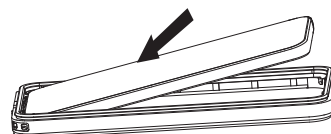

If the paper and case interior are dry, the case passes the water test and is ready to be installed.

3. INSTALL

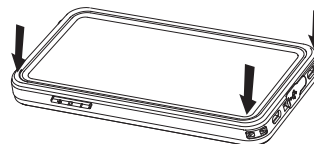

1. Thoroughly clean your device.
NOTE: Remove any screen protectors prior to installation

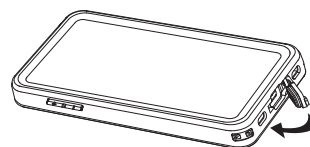

2. Place your device in the waterproof case.

3. With the back facing down, press firmly around the edges of the case to ensure the latches are fully closed.

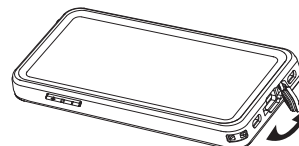

4. Ensure all plugs are securely in place.

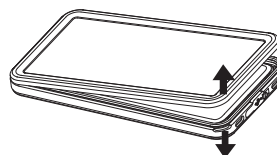

REMOVAL

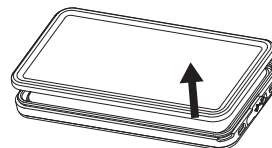

1. Open the charging port cover.

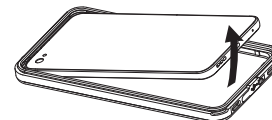

2. Use a coin or similar tool to pry open the case.

3. Remove the cover from bottom to top.

4. Remove your device from the case.

BEFORE DIVING

Before engaging in any activities in or around the water, it is important to follow these common sense rules:

WATER TEST

Perform a water test prior to installing your device.

FOLLOW INSTRUCTIONS

Study these instructions carefully to ensure your device is correctly installed.

MAKE SURE IT'S SEALED

Ensure all ports and seams are closed tightly.

BACK UP YOUR DATA REGULARLY

If you are going to engage in activities with potential to damage your device, ensure that you have backed up your data.

BE SENSIBLE

Your waterproof case is a precision piece of equipment. It is tough, but it is not indestructible. Use it sensibly.

EVERYDAY MAINTENANCE

EVERYDAY CARE CHECKLIST

Follow this checklist to ensure your waterproof case protects your device everywhere you go.

REGULAR WATER TESTS

Perform water tests at regular intervals and after major impacts.

RINSE WITH FRESH WATER AFTER USE

Rinse thoroughly with fresh water after contact with salt water or exposure to chemicals such as soap, detergent or chlorine.

CHECK SEALS AFTER MAJOR IMPACTS

After major drops or impacts, inspect the case for any damage and ensure all seals are closed.

IF A MAJOR IMPACT OCCURS

1. Check that the front and back of the case has not come apart at any point and all seals are tightly closed.
2. Check that the charging port cover is securely closed.
