BOOMBOX

Rewind to the 80s and 90s

Ages 14+ | 3-6 players

CONTENTS: 286 Cards, 24 Scoring Tokens, Instructions

OBJECT

Become the Mix Master of this 80s and 90s jam!

All players create their own compilation of songs for their unique life scenarios. Each player contributes the perfect song for each scenario. Earn Scoring Tokens if your song is selected.

The player with the most Scoring Tokens after 4 rounds, wins!

SETUP

1. Shuffle all the Cassette Cards & place them in a deck face down.
2. Put the Scoring Tokens within reach of all players.
3. Each player draws a hand of 4 cards. Do not show them to the other players.
4. The game is played in a series of turns. The player who most recently listened to the radio goes first.

ON YOUR TURN

1. Choose a scenario (written in the pink part of each card) from your hand and read it out loud. Then place it in the middle of the group for all to see.
2. All other players select a song (written in the black part of each card) from their hand that they think best suits you & the scenario and passes it to you face down.
3. Once you've received a card from each player, mix them up and read each song out loud to the group.
4. Choose the song that's your favorite match for the scenario. The player who passed that song to you takes one Scoring Token.
5. Keep the scenario and the song you chose face up in front of you to show your "playlist" (as shown below). Discard the other cards passed to you.

6. All players draw a card to refill their hand to 4 Cassette Cards, then play passes to the next player on the left to begin their turn.

ENDING THE GAME:

The game takes place over four rounds. When the fourth-round ends, players count their points (one point per token). The player with the most points wins and is awarded the title Mix Master!

In case of a tie, all tied players compete in a REMIX CHALLENGE!

REMIX CHALLENGE:

- Only the tied players compete in the Remix Challenge.
- All other players will work together to choose ONE SONG and read it out loud to the tied players.
- The tied players each submit their own SCENARIO they think best suits the song.
- The judging players mix up the cards, read the submissions out loud, and pick their favorite scenario for the song.
- The player who passed the selected scenario wins the Remix Challenge and the game!

YOUR PLAYLIST

During the game you'll collect combinations of scenarios and songs in front of you as your playlist. At the end of the game, players can read their playlists out loud or use their favorite music streaming service to create a playlist to listen to.
