

# FISH FEUD

## It's FEEDING TIME!

Race to feed the big fish, and clear all the squishy fish from your side of the board!

### What's in the Box:

- 6 Squishy Fish
- 2 Launchers
- 2 Yellow Stands for the game board
- 1 Big Fish Game Board
- Game Instructions

## SETTING UP

- Find an opponent.
- Slide the yellow stands onto the bottom of the Big Fish game board. Line each one up with a groove on the bottom of the board.
- Place the Big Fish game board between the players. Stand it upright with the open mouth facing each player.
- Each player has a launcher.
- Each player places 3 squishy fish of the same color next to their launcher.

## HOW TO PLAY

1. On the count of 3, both players high five each other with both hands and then use their launchers to shoot squishy fish through the mouth of the Big Fish to the other side.
2. Keep shooting until there are no more squishy fish on your side.
3. You don't take turns - players shoot at the same time. Reload and shoot as fast as you can!
4. Any squishy fish that land on your side must be sent back before you win.
5. Players may move their launcher to get the best angle.
6. Players may NOT use their hands to toss squishy fish through the mouth of the Big Fish.

## WINNING

The first player to clear all the squishy fish from their side of the board wins!

### PLAY FOR BEGINNERS

Younger players may need to get the hang of the frantic, fish-flinging play of Fish Feud. Try playing the game with 1 squishy fish per player. The first player to clear their side wins!
